

Series QL short-stroke cylinders

New

Series QL: double-acting, magnetic and non magnetic
 Ø 12, 16, 20, 25, 32, 40, 50 mm

- » Compact design
- » Low weight
- » Easy installation

Series QL short-stroke cylinders are available in seven different bore sizes from 12 mm to 50 mm and are designed to cover a wide range of application needs, from light duties in packaging or assembly through to the demanding requirements of handling components for woodworking. The low weight of the aluminium body and the compact design makes this cylinder range quick and easy to install, even in confined or awkward spaces. Series QL is available in double acting, magnetic and non-magnetic designs. A full range of accessories such as standard, large and narrow mounting feet enhance the applicability and usability of the range.

GENERAL DATA

Type of construction	compact profile
Operation	double-acting
Materials	body: anodized AL rod: rolled stainless steel piston seals: NBR rod seals: PU
Operating temperature	0°C ÷ 80°C (with dry air -20°C)
Mounting	by means of screws or brackets
Operating pressure	1 ÷ 10 bar (double-acting)
Fluid	filtered air class 7.8.4 as indicated by ISO 8573-1. If lubricated air is used, it is recommended to use oil ISOVG32. Once applied the lubrication should never be interrupted.
Strokes	see available strokes table
Bores	Ø 12, 16, 20, 25, 32, 40, 50
Use with sensors	CSC
